

Modular Expandable Sneeze Guards for Conference Tables & Shared Work Desks

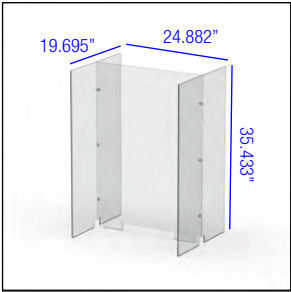

Our modular partition guards are designed to help protect your employees, students, clients and staff by creating a visible barrier while minimizing the risk from sneezes, coughs and droplets.

With three popular width sizes of 2 feet, 3 feet and 4 feet and a height of 30 inches, you can design, combine and implement the right combination in accordance with your requirements. The side panels are also available in two different lengths, 19.6" and 31.8".

The cut-outs provide for cable access whenever and wherever necessary, or use the openings to exchange documents with your colleagues. Our designers are standing by to assist you with your project. Please call us at 877-274-9300 with any questions.
