Sample Configuration (Office)

Create the perfect retail environment by adding components such as the Inline Desk, Peninsula Desk and storage and file Drawer Modules. Engineered to integrate technology into the workspace, the desks provide smooth and resilient work surfaces while their wire management systems keep wires neatly organized and out of sight. The versatile Drawer Modules are available in two sizes and provide a top storage drawer for supplies and a lower file drawer. Endlessly configurable, Eidom - Modular is ideal for offices of any size.

For simplified ordering, Frame Displays offers a menu of preconfigured Eidom - Modular Cabinet packages to suit a variety of applications. Components can be readjusted as often as necessary thanks to machine threaded inserts in the vertical panels (spaced in increments of 2.5"/64mm).

Optical panels are optional.
